MEMORANDUM

TO: The Governing Board

FROM:  Joseph T. Edmiston, FAICP, Hon. ASLA, Executive Officer

DATE: December 1, 2010

SUBJECT: **Agenda Item V(c): Consideration of resolution authorizing an extended Temporary Right of Entry Permit to the Boeing Company for ongoing restoration at former Rockwell employee gun range, Sage Ranch Park.**

Staff Recommendation: That the Governing Board adopt the attached resolution authorizing the Boeing Company a new permit extending from June 30, 2010 through December 31, 2014 for ongoing remediation and restoration work at Sage Ranch Park.

Background: Please see the attached letter request dated November 11, 2010, from the Boeing Company. MRCA previously authorized soil sampling and clean up activity at the May 6, 2009 Governing Board meeting (staff report attached), and issued an entry permit which recently expired. Because of the need for Boeing to perform ongoing monitoring and recovery of lead shot and clay target residue from the long-defunct Rockwell-Atomics International Employee Gun Club, they are requesting an extended four year entry permit term. With the expectation that subsequent rainy seasons may continue to expose some debris, Boeing proposes to monitor and remove any such items, and also to provide bank stabilization and erosion control measures as needed to keep debris from migrating downstream in the the "Northern Drainage" area.

A new Temporary Right of Entry Permit will be drafted.
