MRCA Parks and Trails Now Open

Parks and Trails Managed by the Mountains Recreation and Conservation Authority Now Open

LOS ANGELES (May 9, 2020) - The Mountains Recreation and Conservation Authority announced today that it has opened most of its parks and trails to the public in accordance with the protocols set forth by the Los Angeles County Department of Public Health. Parking lots and most restrooms are also open at all MRCA parks and trails. This follows an unprecedented period of closure since March 22, 2020 due to the COVID-19 pandemic. All park users must wear a mask at all times.

The Los Angeles River Center and Gardens and the Jerome C. Daniel Overlook above Hollywood Bowl and all park buildings at all locations (excepting many public restrooms) remain closed.

The MRCA is asking for the public's help in complying with these rules to keep parks and trails safe so that the parklands can stay open for respite and enjoyment during this public health emergency.

A list of the MRCA's most popular parks can be found at this link on its website: https://mrca.ca.gov/parks/parklisting/.

The Mountains Recreation and Conservation Authority (MRCA) is a local government public entity dedicated to the preservation and management of open space and parkland, watershed lands, trails, and wildlife habitat. The MRCA works in cooperation with other government partners to acquire parkland, participate in vital planning processes, provide natural resources and scientific expertise, and complete major park improvement projects. The MRCA manages and provides ranger services and fire protection for almost 75,000 acres of parkland that it owns and that are owned by the Santa Monica Mountains Conservancy or other agencies and provides comprehensive education and interpretation and leadership programs for youth. It is one of the lead agencies providing for the revitalization of the Los Angeles River.
