

LA CONSERVATION CORPS

Contractor's Name: Los Angeles Conservation Corps
Contact Person: Bo Savage
Address: 605 W. Olympic Blvd., Suite 450, Los Angeles, CA 90015
Phone: 213-362-9000, ext 238
Email: bsavage@lacorps.org

Proposed Scope of Work 4/1/13-9/31/13

Description of Construction Services - This project (the "project") consists of construction services for Phase 1A of the Compton Creek Natural Park Project. More specifically, and although the Los Angeles Conservation Corps, "Contractor", is free to employ whatever methods it deems necessary for the project, or any portion thereof, Contractor agrees to complete the following portions of the project:

Specific Tasks - Contractor will perform the following services for Compton Creek Natural Park:

1. **Concrete Paving** –

Install new concrete walkways, driveway aprons, ramps, and remove and repair existing concrete as needed.

2. **Asphalt Paving**

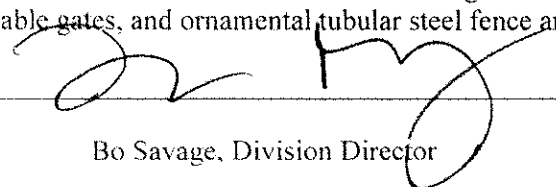

Install new asphalt paving adjacent to Washington Elementary School playground as per plans and specifications. Install new asphalt paving between newly constructed concrete curb and gutter along length of West Cressey Street along frontage of Compton Park between Compton Creek Bike Path and the end of Compton Park property line.

3. **Masonry – Permeable Paving**

Install joint sand at the Community Plaza and Overlook permeable paver locations. Remove existing temporary decomposed granite at North Picnic Table Area and install new permeable pavers and joint sand as per Plans and Specifications.

4. **Fencing**

Complete installation of the various fencing facilities as called on in the Plans and Specifications. This will include the installation of remaining chainlink gates, steel post and cable rail fence, steel post and cable gates, and ornamental tubular steel fence and gates.

Bo Savage, Division Director
