

ALTADENA CREST TRAIL CONNECTORS PROJECT

WHAT IS THE ALTADENA CREST TRAIL CONNECTORS PROJECT?

The Mountains Recreation and Conservation Authority (MRCA) is currently creating two new trails that will provide public access for all to the Altadena Crest Trail, Chaney Trail, and the Angeles National Forest's extensive network of trails in coordination with the Santa Monica Mountains Conservancy and Los Angeles County.

Outward Bound Adventures (OBA), a local non-profit organization which engages and trains youth and young adults from diverse communities to help promote stewardship of open spaces, will build portions of the eastern Sunset Ridge Connector Trail for which OBA has started constructing. See the map, to the right, to visit the trail today!
