B. QUESTIONS FROM BIDDERS

1. **What were the contents of the drums located in the storage building?**

2. **For Temescal Ridge Trail building, do the adjacent planters get removed as well?**
All damaged and destroyed items are to be removed, including the adjacent planters.
3. **At Rainbow Row in Temescal Gateway park, are any of the trees to be removed?**
All trees are to be protected in place under the scope of this bid. This includes any planters/curb that encircle the trees. All other hard surfaces, damaged by the disaster, are to be removed and disposed of.
4. **What is needed for the removal of debris around concrete?**
Collect, consolidate, and remove up to 6 inches of ash contaminated soil from the ash and debris footprint for disposal. This will include the removal of soils around concrete slabs, walkways, patios, and foundations, etc. while still in place. Once the impacted soil is removed, concrete can be removed.
