

Weekly Progress Report

2-2-2026 through 2-6-2026

Work Location: Crummer North (Los Angeles County)

APN: 2685-0-070-090

Overview: The goats continue to clear brush in section CN05. A total of 21 acres were cleared this week. Additionally, the field biologists continue conducting surveys of the worksite in Puerco Canyon. The biology team flagged any protected species or sensitive areas to avoid before the treatments begin in that area. Once the field surveys and flagging are done, La County Fire will begin masticator operations to improve brush clearance along the fire roads.

Weekly Progress Report

2-2-2026 – 2-6-2026

Work Location: (Ventura County)

APN: N/A

Overview: No current operations scheduled. Ongoing planning continues for next stage of the project.
