

Weekly Progress Report

2-9-2026 through 2-13-2026

Work Location: Crummer North (Los Angeles County)

APN: N/A

Overview: Half of the goat herd has been sent to a separate project in Glendale; the goats will return to Crummer North in March. The remainder of the herd will remain on park premises for birthing season. Additionally, the field biologists began conducting surveys of the worksite in Big Rock. The biology team flagged any protected species or sensitive areas to avoid before the treatments begin in that area. Once the field surveys and flagging are done, La County Fire will begin masticator operations to improve brush clearance along the fire roads.

Weekly Progress Report

2-9-2026 – 2-13-2026

Work Location: (Ventura County)

APN: N/A

Overview: No current operations scheduled. Ongoing planning continues for next stage of the project.
