MEMORANDUM

DATE: Effective September 2019

TO: All Permittees

FROM: MRCA Film Office

RE: MRCA Unmanned Aircraft System (UAS) Guidelines and Requirements

Unmanned Aircraft System (UAS) or drone fee is \$500.00 per day of use.

Requirements:

- Plot plan
- COI specifically for UAS.
- A fire marshal may be required
- The UAS must weigh less than 55 pounds
- All operations must utilize a visual observer
- Aircraft must be inspected before each flight
- Operator's name and proof of a pilot's license
- The UAS may not be flown at a speed exceeding 50 knots
- The UAS must always be kept within the pilot's sight.
- Flights must be operated at an altitude of no more than 400 feet above ground level.
- The operator must ensure that no persons are allowed within 500 feet of the area except those consenting to be involved and necessary for the project. This provision may be reduced to no less than 200 feet if it would not adversely affect safety.
